Vision Statement

To provide AODA Training & Licensure services in a peer to peer model. While we offer training to everyone (professionals to professionals to be), our program focuses on working with the disenfranchised: unemployed, underemployed, veterans and their spouses. Alcohol and Drug problems disproportionately affect these 'populations', and our program offers a more "hands on" approach. We have been providing continuous training since 2007. *TransformationServices* feels that we have developed not only a unique treatment approach, but a specialized training opportunity. **The 8 week course allows the student to obtain licensure and employment without the customary 2 year wait to enter the field, if in recovery. Our job placement record is excellent.**
